CLOTHING WITH CONSCIOUS ORIGINS

SPRING / SUMMER 2025

Linden Tank Top // page 54

Portofino Pant // page 60

Where we started: selling shorts out of the back of the Kirsch family station wagon in 1965.

Where we are now: celebrating our 60th year as a group of family-owned brands and our first Aventura collection crafted with 100% eco-conscious fibers.

We are excited to present you with Spring 2025, a milestone collection that embodies everything our family business stands for.

To frame this season, experience a day at the annual Kirsch family “Cousins Camp” with us. Hosted by our mom and family matriarch, Suzanne, in her beautiful home on Washington’s Puget Sound, this summer gathering brings together her six children, (including us, CEO John and Design Director Kathleen), three step-children, 24 grandchildren, and six great grandchildren, plus room for more loved ones as our family grows. Days are filled with sunlit mornings by the dock, afternoons of water adventures, and evenings of shared conversations under the stars.

We photographed every picture in this book at the Cousins Camp house and featured four Kirsches as models to give you a glimpse into the summers that inspire us and the family that helps us keep going year after year.

This experience, though rooted in Washington, echoes the universal joy of summertime. Wherever you are, this collection aims to capture the essence of summer, bringing its nostalgic lightness to everyday life.

We find this business terribly personal (how could a family business not?) and therefore we only want to create clothing that is meaningful. This includes round after round of fitting prototype samples on the ladies in our office. It means a diligent eye on the future and the past to create something that energizes the moment. It also entails prioritizing quality fibers that stretch, feel, and hang the best...of course, while minding their environmental impact.

The fabulous thing about turning 60 is that we know who we are and what we want. Aventura is consistently moving toward the goal of leaving the earth a better place while providing women clothing that makes them feel confident. Cheers to being 60, sustainable, and thriving!

We've Met Our Green Goal!

Five years ago, we challenged ourselves to create 100% of our spring 2025 collection with eco-conscious fibers. We are so very proud to say that we've achieved this goal! Every style you see in the book is made from at least one of the fibers listed below.

In the last 19 years, we've pushed ourselves to not only utilize low-impact fibers, but to always look at how we can improve our offerings. We are happy to introduce flax to our repertoire this year, as well as incorporate the silky LENZING™ ECOVERO™ that crafts some of our best-selling Fall 2024 styles.

Dive into the details of the remarkable sustainable fibers that make up this collection.

Organic Cotton

Organic cotton was the first sustainable fiber Aventura utilized back in 2006. To this day, the environmental benefits make it one of our favorite fibers to feature! Did you know that organic cotton is estimated to save 2,180 liters of water for just one pair of jeans compared to conventional cotton? It also reduces CO2 emissions compared to conventional cotton and eliminates toxic chemicals from communities surrounding farms.

strong & durable fibers

Recycled Cotton

Recycled cotton, also known as regenerated, reclaimed, or shoddy cotton, delivers the same loved benefits as conventional cotton with a lesser impact on the environment. It is derived from either pre-consumer or post-consumer fibers; meaning fabric by-products, that are generated during the manufacturing process, such as yarn or cutting scraps, or discarded consumer products, such as clothing or towels.

TENCEL™ Modal

TENCEL™ Modal provides the same long-lasting silky softness, drape, and breathability as conventional modal without devastation to the environment. TENCEL™ branded modal has an estimated 5.4 times lower environmental impact than generic modal. To achieve this, TENCEL™ sources wood from certified sustainably managed forests and processes it on-site, reducing packaging and energy waste. TENCEL™ also recaptures up to 95% of processing solvents used, lessening toxic effects on the local ecosystems.

lightweight & exceptionally soft

drapes beautifully & resists wrinkles

breathable & moisture wicking

TENCEL™ Lyocell

TENCEL™ Lyocell is a better option than conventional man-made cellulose because of its high resource efficiency and low ecological impact; this lyocell is one of the only to be produced in a closed-loop system that recovers over 99.5% of the solvents used! The fiber's benefits are innumerable and include strength, incredible hand feel, and moisture management.

Lenzing™ ECOVERO™ Viscose

LENZING ECOVERO created fall customer favorites like the Killian and Brynlee Shirts. It now creates this season's silky and perfectly draped Sorrento and Francesca series, too. We love this wood-derived fiber because it disrupts the harmful processing of traditional viscose. Compared to conventional viscose, it uses up to 50% less water, generates 50% fewer CO2 emissions, and only uses certified renewable wood sources.

lightweight & exceptionally soft

breathable & moisture wicking

Recycled Polyester

Reducing landfill waste and dependence on petroleum, recycled polyester is a sustainability doubleheader. Recycled polyester is made by melting down existing plastics and recreating them as new polyester fiber, which means less discarded plastic waste and fewer resources used. Recycled polyester styles are durable, lightweight, wrinkle-resistant, and easy to maintain.

lightweight & strong

shrink & wrinkle-resistant

quick drying & durable

Hemp

Quick growing and requiring minimal inputs, hemp has been a favored fiber since 8000 BC. You'll be delighted to find our hemp-based styles are soft like cotton but offer increased breathability, color retention, and sustainability. Hemp positively affects soil quality and retention because of its deep rooting system. It can also grow up to 13 feet in just three months and requires little to no irrigation or pesticides.

strong & durable fibers

softens with each washing

anti-microbial & breathable

Flax

Flax upholds its "healthy" reputation in the fashion world as being a preferred fiber that uses minimal water and energy to cultivate. Its qualities mirror hemp, providing garments excellent moisture wicking and breathability. This fiber can hold up to 20% of its weight in moisture and dries quickly. It blends well with organic cotton in this season's Tyler series, enhancing the cooling effect of the fiber.

FAIR TRADE: EMPOWERING WOMEN

78% of our Spring 2025 Collection is produced at Fair Trade Certified™ factories and your customers can take pride in knowing that their purchase is helping garment workers end their cycle of poverty!

Fair Trade labor is important to us because we see firsthand the difference a safe, supportive environment is for workers. When we visit our partner factories, we see the difference that fair wages and premiums go to improving people's lives as well as the prosperity of their communities. If we wouldn't work there, we wouldn't ask anyone else to.

Something that stands out to us is the opportunity women have at Fair Trade factories. Women

make up around 80% of the workforce at cut-and-sew factories, but at non-Fair Trade factories women do not hold positions of power. They face discrimination or are left out of decisions that impact them. New mothers often don't have access to childcare, making it nearly impossible to continue working.

These disparities make it challenging for women to free themselves and their families from poverty or gain independence. Female garment workers report that they feel stuck in these oppressive positions because they fear they have no other choice. Fair Trade USA™ empowers women.

Fair Trade changes that, allowing women an equal voice in how premiums (or community funds)

should be spent. Many Fair Trade factories have programs like childcare facilities, transportation, cultural celebrations, medical programs, and savings accounts that help improve their lives and the lives of their loved ones.

Fair Trade not only benefits garment workers, but it also benefits your business; 30% of consumers are more likely to buy Fair Trade products.

Keep an eye out for the Fair Trade Certified™ seal throughout this season's book to easily identify ethically produced styles.

SUNSHINE ON MY MIND

delivery two

available 2/15/2025

The warmth of a wooden dock sitting in the sun all morning underneath you, wiping away the slight chill from the water. Laughter drifting through the air, crisp watermelon melting on the tongue, the lull of a midday nap and the promise of a walk along the shops after. Though these days run like the rivers, floating into each other, this moment is so present, so wholesome, so wonderful.

Founded on the coast of California and based now at the edge of the Range of Light, sunshine is always on our minds. We wanted to invite this feeling to every corner of the country. This delivery features familiar styles like the Breeze Pant along with new faces like the Kelford Midi Dress and Julia Sweater. Styles in this delivery make for perfect beach-to-lunch cover ups during vacation or great pieces for the real world that carry forward that sunshine feeling.

HAPPY HOUR
VIBES

delivery three

available 3/15/2025

After rinsing off the sand, the hum of a blender and fresh scent of lime sets the tone for happy hour, beckoning everyone to the lakeside bar. Gathered around tables, we swap stories of the day's adventures, basking in the sun's gentle descent. Laughter flows freely, fostering a sense of camaraderie that extends to all, forging new connections and rekindling old ones. A cherished moment of togetherness as the day winds down.

This ambiance is mirrored in this delivery, reflecting the transition from sun-drenched activities to relaxed evening conviviality. Garments like the Linden Tank Top and Colmar Dress strike the perfect balance: casual yet refined, embodying the essence of happy hour and dinner by the lake.
