# Every Thread Tells A Story

Clothing is made of more than fabric – it’s shaped by the choices behind it.

We work with organic cotton, recycled fibers, and lower-impact materials to create clothing that feels good to wear and thoughtful in how it’s made. Designed for movement, comfort, and the many seasons of real life, each piece is created with care and intention.

Sustainably made. Thoughtfully designed. Made to be worn often, loved well, and lived in – season after season.

What we wear becomes part of our lives: the mornings we rush out the door, the places we explore, and the moments we return to again and again.

Because what we wear should support how we live – and the world we share with one another.

## More Than A Label

Behind every garment is a community of skilled makers.

Through Fair Trade Certified™ production, the people who create our clothing work in safe conditions, earn fair wages, and participate in programs they help shape – investing in education, wellbeing, and local community initiatives.

In the factories we partner with, women represent the majority of the workforce, contributing their expertise, leadership, and vision to meaningful, lasting progress.

It’s a more thoughtful way to make clothing – one that honors craftsmanship, shared opportunity, and human dignity.

Because clothing should feel good in every sense of the word.

Keep an eye out for the Fair Trade Certified™ seal throughout this season’s book to easily identify ethically produced styles.

# Better Fibers, Better Future

*At Aventura, we believe sustainability starts at the source—choosing materials that are better for us and better for the planet, while delivering the comfort, durability, and beauty you deserve. These are the conscious choices woven into every piece we make.*

## ORGANIC COTTON

Naturally soft. Thoughtfully grown. Organic cotton is cultivated without synthetic pesticides or fertilizers, using farming practices that support healthier soil and more responsible water use. The result is a fabric that feels gentle against the skin while reducing environmental impact.

Comfortable, breathable, and made with care from field to finished garment.

## HEMP

Naturally resilient. Effortlessly comfortable.

Hemp is a fast-growing fiber that requires little water and thrives without synthetic chemicals. Known for its durability and breathability, it softens beautifully over time, creating garments that feel lived-in from the start and last for years to come.

Strong by nature. Easy to wear.

## RECYCLED POLYESTER

Thoughtfully renewed. Made for everyday wear.

Recycled polyester gives existing materials a second life, helping reduce waste while conserving resources. Used alongside natural fibers, it brings comfort, easy care, and lasting shape designed for the rhythms of daily life.

A practical choice, reimagined with purpose.

## TENCEL™ MODAL

Softness, refined by nature.

Derived from sustainably managed beechwood forests, TENCEL™ modal is produced using a resource-conscious closed-loop process. Its silky texture, breathability, and fluid drape create garments that feel effortlessly comfortable and naturally elegant.

Gentle on the skin and designed for lasting softness, bringing everyday luxury to pieces made to be worn again and again.

## LINEN

Lightweight. Timeless. Naturally cool.

Made from flax fibers, linen requires minimal water and uses nearly every part of the plant, making it a naturally efficient material. Its airy texture and relaxed drape create effortless comfort, especially in warmer seasons.

Easy, breathable, and made for living well.

## LENZING™ ECOVERO™ VISCOSE

Soft drape. Thoughtfully sourced.

LENZING™ ECOVERO™ viscose is derived from responsibly managed wood sources and produced using processes that reduce emissions and water impact compared to conventional viscose. The result is a smooth, breathable fabric with a fluid drape and an easy, comfortable feel.

Lightweight, versatile, and designed for everyday wear — with a more mindful approach from fiber to finished garment.

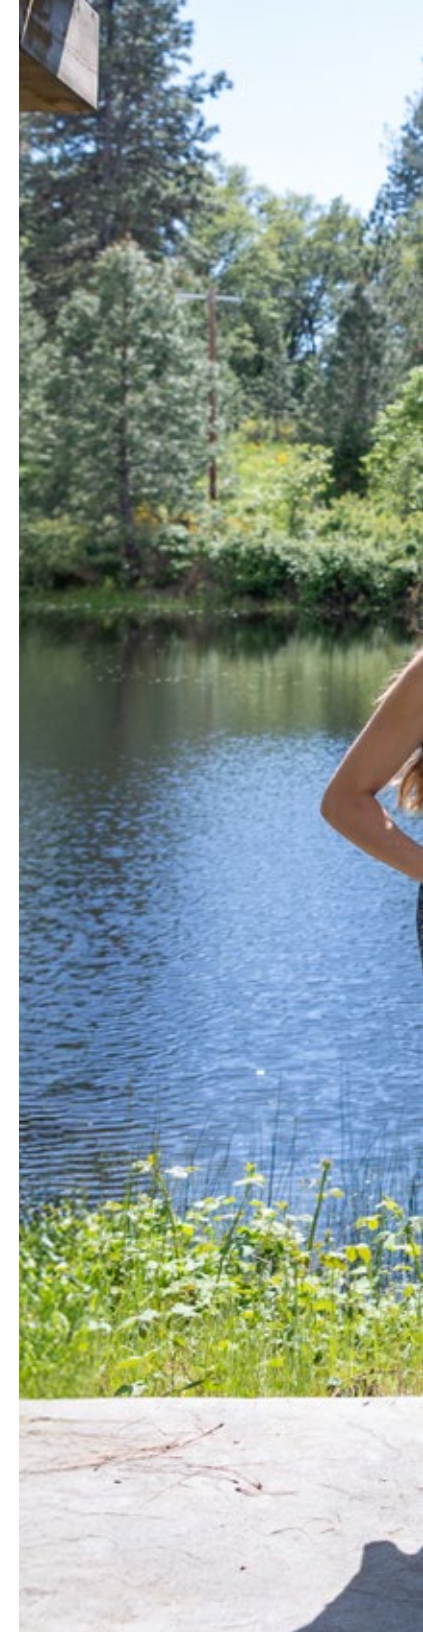

## TENCEL™ LYOCELL

Naturally refined. Responsibly created.

Made from wood pulp sourced from responsibly managed forests, TENCEL™ lyocell is produced using a resource-conscious closed-loop process. Its smooth texture, breathability, and lasting strength create garments that feel cool, comfortable, and easy to wear.

An innovative fiber designed with both performance and responsibility in mind.
